

Programs for Clubs and Places of Worship who want to help end the devastating effects of extreme poverty in Ethiopia and sub-Sahara Africa

In the United States, poverty is an inconvenience; in East Africa, poverty is a death sentence without mercy.

We will not bombard you with data; all you need to know is that money buys the tools, training, and supplies that will save the lives of millions of people. *It is that simple.*

Money pays to train farmers to grow food in

drought-stricken areas. It pays to train healthcare workers to care for the sick and prevent disease. It pays teachers to help poor children and adults learn to read and write to ensure a better future for them and all of Africa.

Everyone can do something. You can make a difference and you can help to save lives.

Permaculture techniques work in Ethiopia and they are 'affordable'

THE PRAXIS ETHIOPIA FOUNDATION can help you to make a difference in Ethiopia and sub-Sahara Africa.

Education is the only way out of extreme poverty. Literacy connects everyone to all human wisdom

Places of Worship

The CHANGE FOR CHANGE PROGRAM helps Places of Worship contribute to poverty reduction in Ethiopia.

To participate, your Place of Worship would designate one service each month during which people would have the opportunity to donate

spare change to support the FOUNDATION's work.

Then every few months, your Place of Worship would send a check to the FOUNDATION for the amount of money collected.

Your Place of Worship will be listed on our website and if you have a web address, we would be happy to list that, too.
